

Greater Greenville Sanitation is a Solid Waste Special Purpose District established by the South Carolina legislature in 1968. Celebrating our 51st year of servicing customers with residential and commercial waste removal as well as recycling, we are currently seeking an experienced Diesel Mechanic to join our team.

The Diesel Mechanic will be responsible for performing preventive maintenance and repairs on fleet of front loading and rear loading sanitation trucks, flatbed trucks, tractors and other related equipment, machinery and tools. Job assignments range from brake and front-end repairs, tire repairs, minor adjustments and body work, engine tune-ups, air conditioning services, to basic manufacturer maintenance services.

The Diesel Mechanic must properly document all work to ensure compliance with safety standards for all vehicles, federal and state transportation requirements. Must be committed to continual training and development as vehicle design and specifications change.

Requirements:

- Minimum of 5 years' experience as a diesel mechanic
- CDL license in good standing
- Physical strength in lifting 50 pounds or more on a daily basis
- Availability to work rotating on-call emergency road side service for vehicles

The individual selected for this position must be committed to a diverse and respectful work culture and be able to thrive in a team-based work environment.

GGSC offers an excellent benefits package including medical/dental/vision/life/disability benefits, state pension plan, 4-day work week, and more.

If you are interested in this opportunity, you may apply in person at 1600 West Washington Street (Monday – Thursday 8:00am – 4:00pm) or send your resume to careers@ggsc.gov.
