Press Release
Greater Greenville Sanitation Commission

March 31, 2020

The Greater Greenville Sanitation District provides a valuable service to our community by keeping Greenville County clean and healthy. At this time, it is especially important that we keep our garbage collection on a regular schedule.

We recognize that people throughout our community, including our workforce, are concerned for their personal health and that of their families and friends. Our aim is to do everything we can to slow the spread of the COVID-19 virus and protect our employees and the communities we serve.

In order to protect all members of our community and workforce, we decided with the agreement of our Commissioners on the following changes to our service:

- All efforts will be focused on garbage pickup at this time.
- If you recycle and place recycling at the curb, we will collect with your garbage.
- There will be limited Yard Waste collection so your normal collection will most likely be delayed.
- The Office is closed to customers and visitors to limit exposure. Our customer service department can be reached each day, Monday through Thursday, by telephone or email: (864) 232-6721 or info@ggsc.gov.

All employees have been briefed about the importance of using personal protective equipment and have been provided with supplies for health and safety to include the sanitizing of trucks and equipment each day.

Our office continues to monitor the situation and is in contact with our Commissioners and County Council as needed. This is our plan of action through April 30, 2020, but this date could be extended.

Thank you,

Steve Cole
Executive Director
Greater Greenville Sanitation Commission
